

ICIS Academic Heads' Breakfast

Information Systems Academic Heads International

Tuesday, Dec 14, 7.00am - 8.00am

Burnham Meeting Room, Grand Hyatt Washington

Jointly sponsored by the University of Georgia and Georgia State University

Welcome to the 2004 ICIS Academic Heads' Breakfast and the first meeting of the Information Systems Academic Heads International (ISAHI)

We plan to continue the casual format that was so successful last year. We provide an atmosphere where department heads can meet each other and discuss shared problems. Rather than a program, we will set several "table topics" that represent current issues with which we are all likely to be wrestling. We can share our analyses, ideas and strategies.

Two of Georgia's great universities, The University of Georgia, and Georgia State University, are proud to organize and sponsor this breakfast each year.

Enjoy your breakfast!
